**drawing with mark** LET'S DRAW AN ICE CREAM TRUCK!

Get some paper, pencils or crayons and let's practice Drawing with Mark!

We'll start with boxes to put our truck in PERSPECTIVE and make it seem like it's driving towards us.

Now we can add vertical lines for the door and window too, with an awning above.

By adding curved lines to the tires, they look like they're in perspective too!

Now we can add more detail like a horn on top and a fun giant cone!

The box shapes we started with are erased but they were a great foundation to build our drawing on. Use boxes to draw any kind of truck you want!
